

Terms of Service Document

The Service

App4 Software provides hosting of data to support an electronic school diary. Each school's data is maintained in a separate database, exclusive to the contracted school. The school uses App4 Software products – ie. iPad Apps, and/or web portals – to store, create, update and manage their own data. App4 Software is not providing any content or material, only acting as a host repository for the School's users.

Payment

The school pays annual fees to App4 Software to make use of the provided applications, to be responsible for providing 24-hour access to the data, and to keep the data private and secure.

Data Access

Only the App4 Software staff charged with supporting the database has access to the data. We do not access this data for any kind of data “mining”, or cross-school analysis, evaluation, interpretation, or consolidation. We are merely holders and managers of the repository on behalf of the school.

Digital Signatures

The App4 Students iPad application has provision for a “sign-on-glass” signature to be recorded as an overlay on a pdf document. We do not retain this signature in any form. It is used as a graphic image embedded in a pdf document being merged with a template provided by the school.

Terms of Service Changes

If we change our terms of service, we will modify this document, and its effective date accordingly. We also will notify you of any material change to this Privacy Policy by placing a prominent notice on our website. We encourage you to review this Policy periodically to be informed of how we are protecting your information.

This Terms of Service document is effective as of 24 May 2012.
